Strabismus and Amblyopia: Free Comprehensive Video Course

Dear Colleague:

We invite you to view the newly released “One World One Vision Comprehensive Video Course on Strabismus and Amblyopia."

One World One Vision (OWOV) is a charitable organization originally devoted to improving outcomes in individuals with strabismus and amblyopia by teaching evaluation and treatment techniques to ophthalmologists worldwide, including in medically underserved areas. Recently, the organization conceived of and supported the development of a video course designed to accomplish that purpose. The course was developed by Dr. Burton Kushner. The selected lecturers are experts in various aspects strabismus and amblyopia. The entire course consists of 17 lectures. Their topics and presenters include:
