

Orthoptic Student Case Study

Meet Mostafa

Mostafa went through clearing for Medicine, then found out about orthoptics, “the best eye course”, on UCAS.

What is a typical day like? Sometimes busy days and sometimes quiet days.

Three words to describe the course?
Best eye course.

What is the best part of your course?
Data collection for the research project.

What is the most challenging part?
Writing up the research project.

What skills/experiences have helped you? Communication and enthusiasm.

Advice for prospective students?
Do the work on time before it gets too late.

What are you looking forward to in your orthoptic career? Learning more.
